Indiana City Brewing Co. expands as third anniversary approaches

INDIANAPOLIS, May 9, 2016 —Since they began canning their flagship beers in October 2015, Indiana City Brewing Co. has become increasingly well-known for their high-quality, small batch beer. Finding it difficult to keep up with the demand for their product, Indiana City jumped at an opportunity to expand their brewhouse.

Indiana City has held onto their philosophy of creating high-quality beer and growing organically, allowing demand to drive growth. The recent brewhouse expansion is a first for the brewery, enabling them to double production in 2016 as they have each year since opening. Upgrading from a 3.5 barrel nano-brewing system to a 10 barrel system is a strategic move, complemented by opportune timing.

“Local demand for our beer has skyrocketed. Brewing at capacity on our current equipment was just not enough,” said owner, Ray Kamstra, “It was welcome news when our friends at Pipeworks Brewing Co. in Chicago thought of us when it came time to sell their brewhouse after their recent expansion. The timing was perfect.”

With their 3rd Anniversary Party scheduled for May 28, 2016, Indiana City has already received their biggest birthday present yet—one that will continue to serve the city they brew for.
